1. Please describe your special characteristics and skills that would benefit the work of the Nominating Team, such as interviewing skills, ability to work with people, etc. Also please discuss your motivation for serving on this Team.

I have 20 years experience as a Career & Leadership Coach. I have coached people on their career interests & skills, such as interviewing, networking & negotiations. I have also lead Volunteer Management for a nonprofit association. These skills support my desire to help CSL St. Louis deepen its leadership experience and expand member volunteer engagement throughout the Center.

2. Describe the positions you have held in the church (volunteer or elected), length of membership at CSL, and any Science of Mind class work completed.

I have served on the Nominating Team for 3 years, the Leadership Council for 4 yrs, on the Hospitality Team for 7 yrs, and been a member for 19 years. I have completed all classes required as pre-requisites for Practitioner training plus 5 others, for a total of 16 classes.

3. As member of the Nominating Team, you will be asked to get to know members and congregants of CSL St. Louis throughout the year, attend meetings of the Team between May and October, to talk with possible candidates for nomination, and support them in submitting their application materials. How do you feel about these responsibilities?

I am excited to get to know members & visitors better, to learn about their backgrounds and interests. I look forward to working with Membership & Education to help engage people with opportunities at CSL, both as volunteers and potentially for leadership roles, and sharing this information with the Leadership Council in preparation for annual elections.
